How Important are the following features

Road Widening (17 Mile to M59)

7.1

Technology upgrades (Smart Streets)

6.7

Better Signal Timing

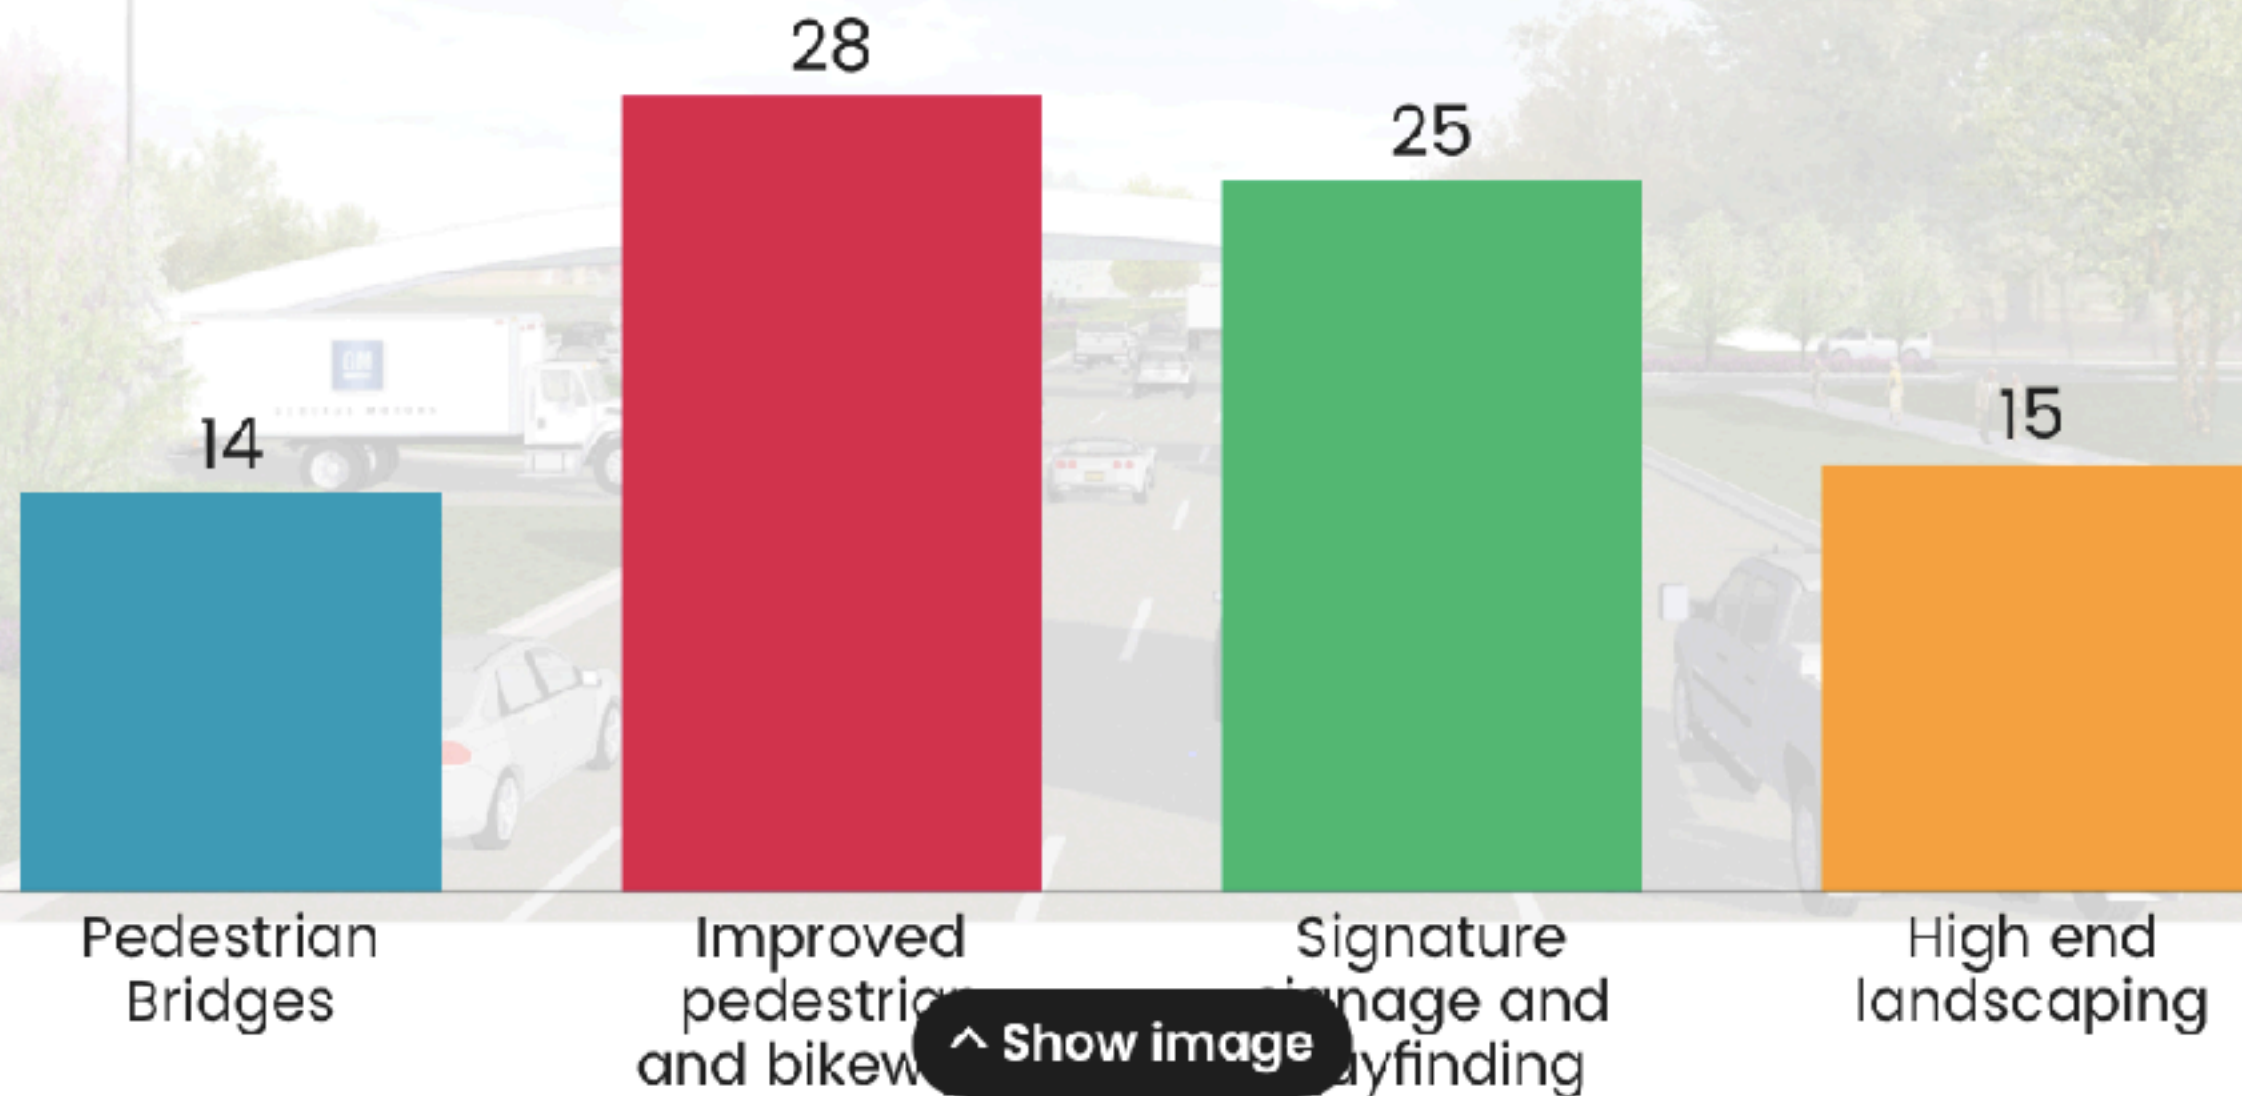

7.4

Exclusive truck lanes (freight priority)

6.4

Which design element is most important to you?

Mentimeter

Whats your takeaway from today?

Optimistic about the team effort and the shared support for the project.

Exciting opportunities

Collaboration

The meeting seemed to turn into a political display.

Exciting

We need \$\$\$

Incredible community support!

Mound needs help!!

We need to get mdot involved

Strong support is here to make this happen

Great people coming together for a great cause in an area we all live and love

Collaboration among partners

^ Show image

Whats your takeaway from today?

I think this is a great start to a much needed improvement.

Cooperation is vital

Good collaboration

Needs planning involvement and funds

Funding levels for infrastructure projects must be increased to meet our needs.

C Miller parkway

Understand better how business can support.

Good start but we need a great finish

Informative, interesting and gives one hope.

Interesting

Effective presentation of project with

[^ Show image](#)

Whats your takeaway from today?

Great turnout! Makes me hopeful we can get this done.

Effective presentation of project with strong universal support.

Continue to work together to get it done! We need it!

Good luck getting the funds. Our company is in favour

We need our local officials to agree and form one concise message before moving forward

Finally

Initial meeting is informative And would like to have follow up with status

Major road with desperate need for repair. 3-4 million in funding each year patching going no where now.

Good ideas, but no direct concise plan.

The corridor improvement is very

We need to prioritize our project and

This is really needed and we need to push for funding to get this to move

^ Show image

Whats your takeaway from today?

Mentimeter

The corridor improvement is very important based on the turnout.

We need to prioritize our project and put the critical elements of the project first.

This is really needed and we need to push for funding to get this to move along so we don't waste money on maintenance. do it right!

We all agree unanimously improvements are critical to future economic development; let's rebuild America and it starts here for Macomb Cnty.

We need a ton of money. How will this project compete with other MI projects coming online and is this a priority for the MI delegation?

Fix the road more durable.

An impressive turn out demonstrating need.

Spend the money on high impact low maintenance things. Look to the future, the roads need to be built to last!

Copy successful corridors in Metro detroit - woodward, orchard lake,

Do the whole road from 8 mile while the construction crews are there!!
Maintain better than you

^ Show image

Whats your takeaway from today?

An impressive turn out demonstrating need.

Need for partnership with local government and private industry to colaberate together to fund for improved mound road corridor.

Spend the money on high impact low maintanance things. Look to the future, the roads need to be built to last!

The reason for the meeting is that the road is falling apart, and that is after being rebuilt. Nothing has been said about how to fix that.

Copy successful corridors in Metro detroit - woodward, orchard lake,

Do the whole road from 8 mile while the construction crews are there!! Mantain better thank you

We need to concentrate on road design. Traffic movement, longevity of road surface, drainage, etc. Thank you, Brad Wolfbauer
